AgTech is booming! In 2021, investors "plowed" \$4.9B into AgTech startups (a 45% increase over 2020).

The Research Triangle has quickly emerged as a global hub for investment in AgTech. We're hosting a special pitch event to amplify the region and showcase four innovative female founders innovating in the space.

Join us in Durham next Wednesday for **Dolphin Tank AgTech in the Triangle**, where women entrepreneurs will pitch their companies and receive constructive insights from investors and subject matter experts.

Dolphin Tank isn't about piranhas, sharks, or even competing for the best idea. Instead, the focus is on **"How can we help?"**
